Professional Summary

Software Engineer with industry experience in building scalable, real-time web applications using React and Node.js. Experienced in full-stack development through an R&D internship at KONE Elevators.

Technical Skills

Programming: C, C++, JavaScript, TypeScript

Web Technologies: React.js, Node.js, Express.js, HTML, CSS, Tailwind CSS

Databases: SQLite, MongoDB

Tools & Platforms: Git, GitHub, GitLab, Docker, VS Code, IntelliJ, Eclipse, Render

Experience

KONE Elevators India Pvt. Ltd.

Aug 2025 – Present

Product Development Intern, R&D

- Developed **TeamRetro**, a real-time Agile retrospective platform using React, TypeScript, Node.js, and WebSockets.
- Implemented multi-stage workflows including brainstorming, voting, discussions, and action-item tracking with live synchronization.
- Built **Planning Poker**, a real-time web application for distributed Agile estimation using React, Node.js, and Socket.io.
- Containerized and deployed both applications on internal edge devices using Docker.

Projects

BuildBuddy – Architect–Customer Collaboration Platform

React, Node.js, Express, SQLite

[Live Demo](#)

- Built a full-stack platform enabling collaboration between architects and customers through role-based dashboards.
- Implemented project creation by customers and a bidding system for architects with pricing and proposal details.
- Enabled bid review workflows, acceptance or rejection, and post-project star ratings with reviews.
- Deployed the application on Render with persistent SQLite-backed storage.

Doctor Assistant – Desktop Application

JavaFX, SQLite

- Developed a JavaFX-based medical practice management system to support daily clinical operations.
- Implemented patient record management, appointment scheduling, and prescription generation.
- Designed a drug repository with dosage and interaction details to reduce prescription errors.

Education

COEP Technological University, Pune

2024 – 2026

M.Tech in Computer Engineering

CGPA: 7.2 (Current)

Government College of Engineering, Karad

2020 – 2024

B.Tech in Information Technology

CGPA: 8.43
